1. Attached is a booklet of price tables for scrap and waste material. The tables include the prices paid by the Government and those at which the Government resells the materials to industrial plants.

2. Although issued in 1951, the price lists are still valid, and price changes have been noted by hand on the lists. On pages 8 and 9, the 1954 prices are shown on the margins, while amendments to present prices have been shown in the pertinent column.

3. In those instances where no corrections are shown on the margin, the change in prices was the result of the currency reform of 1952 (100 old leva for 4 new leva). Those prices for which no corrections have been made in pencil or pen must also be calculated on the basis of the currency reform of 1952.
